

CoraSim[®]

INTERACTIVE ELECTRICAL HEART SIMULATOR

The Training Tool for Applications
of Temporary Pacemakers

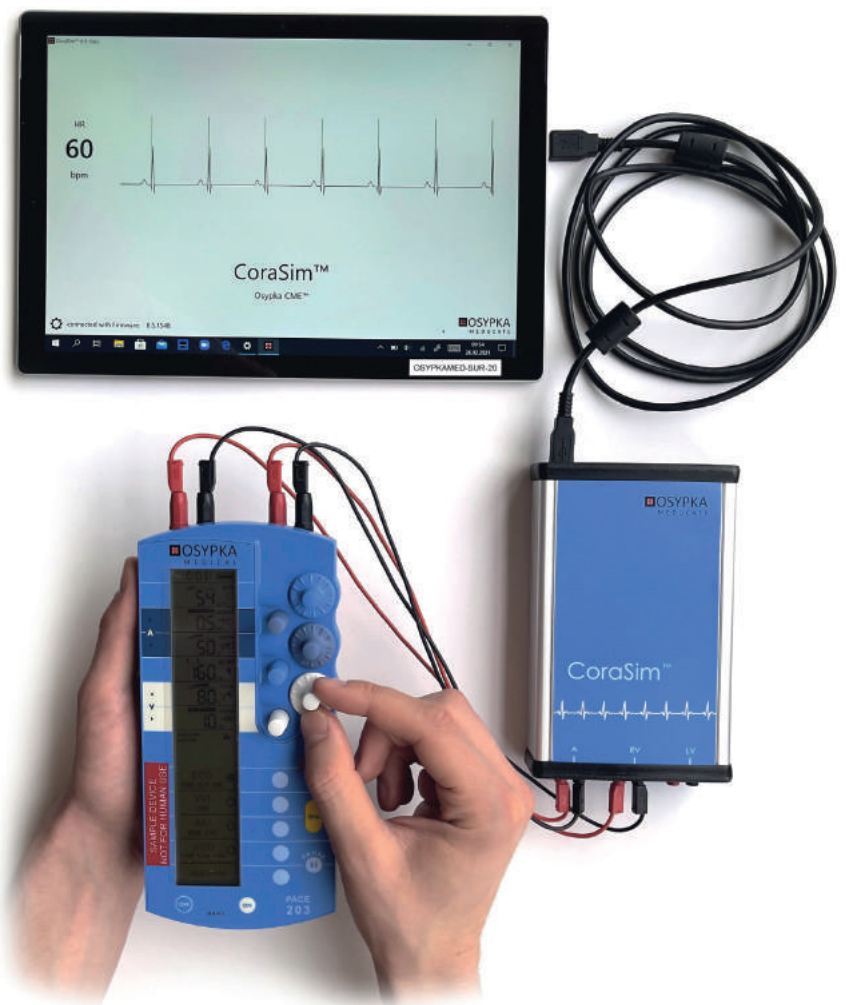

CoraSim® Interactive Electrical Heart Simulator

Do you value comprehensive and regular training for your staff in the application of temporary pacemakers?

The CoraSim® Interactive Heart Simulator supports continued medical education hands-on with the device:

- Study impact and analyze changes in the ECG due to changes in pacing parameters
- Simulate special and extraordinary scenarios
- Training tool facilitates communication and learning within your team
- Quick set-up and easy to use

Get your team well-trained and keep its expertise by regular training sessions!

MEDUCATE® ist the new training concept: experience the first practical training on temporary pacemakers in interaction with the heart simulator CoraSim®!
